ANTI-BACTERIAL

LAB-GRADE

LAB-GRADE Compact is a solid grade laminate **resistant to harsh chemicals**, bases, solvents as well as harsh cleaning agents manufactured using the unique patented Electron Beam Curing (EBC) to provide the perfect choice for laboratory facilities.

This process makes the laminate highly resistant to most of the chemicals but also makes it non porous which **stops the bacterial growth** on the surface.

FEATURES

- Chemical and stain resistant (conforms to SEFA 8.1-PL-2010; Chemical Spot Test* (Test Report available on request)
- Resistant to scratches
- Resistant to cigarette burns

9801 **Argent White** FA

9803 **Black** FA

THICKNESS: 16mm
(other thicknesses available on request)

SHEET SIZE: 3660 x 1525mm
